PROFESSIONAL SUMMARY

Team Lead React Native Engineer with 4+ years of experience building and releasing production iOS and Android apps. Currently leading 3 developers at OPUS GEEKS with hands-on ownership across React Native, TypeScript, Firebase, payments, push notifications, maps, and store releases.

EMPLOYMENT HISTORY

Team Lead React Native Engineer OCT 2024 - PRESENT
OPUS GEEKS

- Lead 3 React Native developers across production iOS and Android projects.
- Own architecture, task breakdown, code review, release readiness, and mentoring.
- Integrate Firebase, REST APIs, Stripe, Apple IAP, Google Play Billing, push notifications, maps, and geolocation.
- Publish and manage apps through App Store Connect, TestFlight, and Google Play Console.
- Delivered published apps including Receipts to Riches, Fence Space, Wedstimate, Clean N Sober, EyeQ, and Cruisimity.

Senior Software Engineer OCT 2023 - OCT 2024
Instant Solutions Lab

- Built React Native apps using TypeScript, Redux Toolkit, reusable components, and modular screens.
- Integrated Firebase, REST APIs, authentication, push notifications, and third-party SDKs.
- Improved loading behavior, app performance, error handling, and key user flows.

Software Engineer (React Native / React.js) FEB 2023 - OCT 2023
Regex Dot Private Limited

- Developed mobile and web features using React Native, React.js, JavaScript, and reusable UI components.
- Integrated REST APIs, authentication flows, and frontend state management.

JavaScript Developer JAN 2022 - FEB 2023
Strugbits

- Developed frontend applications using JavaScript, React.js, HTML, CSS, and component-based UI patterns.
- Built reusable UI components, connected REST APIs, and improved responsive interfaces.
